

# Accuratus 15 Key Bump Bar

**BY ACCURATUS**

Accuratus KYB500-BB15F

## About

The Accuratus 15 key bump bar is designed to seamlessly intergrate with your kitchen interface, making sorting through orders easier than ever. Program the bar using our Matrix Maker software to meet your specifications, then use the intuitive design to sort through orders quickly and easily, without having to touch screens and other equipment where grease and dirt can build up. The bump bar can be customised with your own colour, legends, interfaces, and logos to create a bump bar tailored to you and your needs.

The cable has 15Kg strain relief, preventing the cable from being pulled out of the keypad.
