

Accuratus BB20 - 20 Key Programmable Rugged KDS Bump Bar - USB + RF Wireless

BY ACCURATUS

Accuratus KYB500-BB20A

About

The Accuratus 20 key bump bar is designed to work seamlessly with your kitchen interface, making sorting through orders easier than ever. Use the intuitive design to accept, move, and fulfil orders quickly and easily, without having to touch screens and other equipment where grease and dirt can build up. The bump bar can be customised with your own colour, legends, interfaces, and logos to create a bump bar tailored to you and your needs.
