Accuratus Accumed 540 - USB Mini Sealed IP68 Rugged & Industrial Sealed Keyboard with Large High Resolution Touchpad

About

The AccuMed 540 VESA keyboard offers VESA mounting, perfect for keyboard arms, vehicle mounting or any other fixing. The AccuMed 540 also offers ultra slim keys whilst still offering an excellent tactile and responsive feel. The keyboard can be fully cleaned and wiped over in literally seconds and also has a handy power on/off button, enabling you to turn the keyboard off during cleaning, preventing keys sending messages to the PC. There is also a cleaning reminder which enables you to set the time span required for cleaning (30min, 1hr, 2hr or 4hr) which aids infection control as the user is prompted to clean this washable keyboard regularly. The 540 has our NANOARMOUR-2 dual layer antibacterial protection impregnated in the silicone and coated on the surface to aid in deactivating germs/build up of bacteria & viruses.

Specifications
