Accuratus 9200IR - Accuratus 9200 Windows Hello Infra Red Full HD Auto Focus Webcam

About

The Accuratus 9200IR is a premium Full HD webcam equipped with an advanced CMOS 1/2.5" sensor and infrared technology for seamless Windows Hello facial recognition. It delivers crisp, auto-focused video that's perfect for professional meetings, streaming, and secure sign-ins. Dual omnidirectional microphones with built-in noise reduction ensure clear, natural audio capture from any angle, even in busy environments. The adjustable screen clip provides a stable fit on monitors and laptops, while the integrated screw-thread mount allows easy attachment to optional stands or tripods. Reliable, sharp, and secure—ideal for modern work and home setups.
